CHILD TRAINING

Preparing Our Children for Citisenship By Allos Wingate Frary.

Our children are given regular instruction in citizenship in school but the best that can be done for them there will not that can be done for them there will not alone give them the urgs toward helpful service in the community that they might have with the thoughtful co-operation of their parents. The talks, songs and pageants of school have served to widen their vision and strengthen their grasp of the dramatic events of the past. Fathers and mothers can help them to express their appreciation of the time and country in which they live in terms of everyday service. To teach them that they have an important part in keeping a happer well. Herrin got away with murder so easily that others in many places seem encouraged to do the same thing.
